Subject Title: Avent Ferry Road and Main Street Adoption (partial)

Presenter Name(s): Aaron S. Levitt, P.E

SUBJECT HIGHLIGHTS:

The design for the Holly Springs Town Commons project is underway and construction is planned for late 2018. This project is located between Avent Ferry Road and Main Street, south of Ballentine Road. As downtown development requests continue to increase, with new developments come utility upgrades, sidewalk-, parking lot- and building additions/modifications as well as road/RW widening and speed limit modifications.

The two streets in the described area are under NCDOT maintenance and include a portion of Main Street (S.R. 55) from Holly Springs Road to NC Bypass 55 (1.07 miles) as well as a portion of Avent Ferry Road (S.R. 1115) from Center Street to NC Bypass 55 (0.67 miles).

Adoption of this roadway by the Town of Holly Springs will give us more flexibility and control over how and when work in the Downtown Village District is completed.

Assuming maintenance also will give us more opportunities for street closures for festivals and events to create a more pedestrian friendly downtown during events.
