Transportation is an important part of our daily life in Holly Springs. It affects how we move through the area and how we experience our town. A Comprehensive Transportation Plan, or CTP, will establish Holly Springs' local vision for transportation and identify ways to achieve it. The plan will help us coordinate with future development, establish policies and programs, and get projects funded.

Our plan will be a powerful advocacy tool as Town staff seek to communicate local priorities to regional partners, including staff and elected officials, private developers, the Capital Area Metropolitan Planning Organization (CAMPO), the North Carolina Department of Transportation (NCDOT), and the public.

The Holly Springs Comprehensive Transportation Plan is well underway and the project team has been preparing for the first round of public outreach. The project team recently met with the Steering Committee, interviewed our Town Council members, and launched an online survey.

We invite you to engage with the planning process by completing the online survey or attending the upcoming virtual workshops — or even better, BOTH!
